Item 2. Acquisition or Disposition of Assets

The Goldfield Corporation ("Goldfield") announced on December 4, 2002 that it had completed the previously announced plan to divest its mining operations, which have been reported as a discontinued operation since the first quarter of 2002. Pursuant to a Stock Purchase Agreement, effective November 30, 2002, between Goldfield and Imagin Minerals, Inc. ("Imagin") (the "Stock Purchase Agreement"), Goldfield sold to Imagin the capital stock of its mining subsidiaries, St. Cloud Mining Company ("St. Cloud") and The Goldfield Consolidated Mines Company ("GVCM").

Under the terms of the sale, Goldfield received \$3,473,613, which includes \$2,497,590 (net of post-closing adjustment) in cash paid by the purchaser, \$370,210 by transfer to Goldfield of cash balances from the companies sold and the assignment by St. Cloud to Goldfield of \$605,813 in outstanding real estate notes receivable.

The purchase price was determined pursuant to arms-length negotiations between Goldfield and Imagin. Imagin is an unaffiliated private company headed by Garold Spindler, former President of the Cyprus Amax Coal Company.

Item 7. Financial Statements and Exhibits

(b) Pro Forma Financial Information

Effective November 30, 2002, Goldfield sold all of the outstanding shares of its two mining subsidiaries, St. Cloud and GVCM, to Imagin. The unaudited pro forma consolidated balance sheet as of September 30, 2002 includes the unaudited historical financial position of Goldfield, adjusted for the pro forma effects of the disposition, assuming the disposition occurred on September 30, 2002.

The unaudited pro forma consolidated statement of operations for the year ended December 31, 2001 includes the audited historical results of operations for Goldfield, adjusted for the pro forma effects of the disposition, assuming the disposition occurred on January 1, 2001.

The unaudited pro forma consolidated statements of operations for the nine months ended September 30, 2002 include the unaudited historical results of operations for Goldfield, adjusted for the pro forma effects of the disposition, assuming the disposition occurred on January 1, 2001.

The unaudited pro forma consolidated financial statements are not necessarily indicative of the results of operations that would have actually occurred if the disposition had been consummated as of January 1, 2001. These statements should be read in conjunction with Goldfield's historical consolidated financial statements and related notes thereto, in its annual

report on Form 10-K for the year ended December 31, 2001 and its quarterly report on Form 10-Q for the quarter ended September 30, 2002.

Notes to Unaudited Pro Forma Consolidated Financial Statements

1) Basis of presentation

The unaudited pro forma consolidated financial statements reflect the sale of the capital stock of Goldfield's mining subsidiaries. The unaudited pro forma consolidated balance sheet as of September 30, 2002 reflects Goldfield's financial position as if the sale of the mining subsidiaries occurred on September 30, 2002, and includes pro forma adjustments for the receipt of consideration, accrual of additional disposal related expenses, the disposal of substantially all assets and liabilities of the mining subsidiaries and reclassifying the remaining portion of discontinued operations to continuing operations.

The unaudited pro forma consolidated statements of operations for the year ended December 31, 2001 and the nine months ended September 30, 2002 reflect Goldfield's results of operations for such periods as if Goldfield had disposed of the mining subsidiaries on January 1, 2001, thereby excluding the mining subsidiaries' revenues and expenses and recognizing interest income on the notes receivable portion of the consideration.

No assumption has been made as to Goldfield's intended use of the consideration from the sale.

2) Pro forma adjustments

- (a) Reflects the recording of consideration for the sale of the mining subsidiaries in the amount of \$3,424,420, which includes \$2,497,590 in cash, \$321,513 in the transfer to Goldfield of cash balances from the companies sold and the assignment by St. Cloud to Goldfield of \$605,317 in outstanding real estate notes receivable. The amounts used for the cash transfer (\$321,513) and notes receivable assignments (\$605,317) are the historical balances as of September 30, 2002, rather than the actual amounts as of the date of disposal, November 30, 2002. The pro forma adjustments also reflect the disposal of the mining subsidiaries' assets and liabilities, and an accrual for expenses in relation to the disposal of approximately \$568,000, which is comprised of \$100,000 in employee severance, \$100,000 in completion fees, \$300,000 in broker commission and \$68,000 in other related costs.
- (b) Reclassification from discontinued operations to continuing operations of the portion of notes receivable that were excluded from the sale of the mining subsidiaries which were previously included in current and non-current assets of discontinued operations.
- (c) Reclassification from discontinued operations to continuing operations of the portion of accrued employee bonuses that were excluded from the sale of the mining subsidiaries which were previously included in current liabilities of discontinued operations.
- (d) Adjustment to remove revenue and expenses for the mining subsidiaries.
- (e) Reclassification of interest income on notes receivable of \$15,540 from discontinued operations to continuing operations.
- (f) Reclassification of interest income on notes receivable of \$32,983 from discontinued operations to continuing operations.

(g) Income tax effect of pro forma adjustments calculated using the statutory rate of 34%.
